

California OES Weather Threat Briefing

Thursday, October 22, 2020
9:00 AM PDT

Day 1 (Thursday): Strong north to east wind gusts and low humidity will bring another day of critical fire weather conditions to much of northern California today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

10/22/20 - 10/28/20

Thursday-Friday

- Critical fire weather conditions continue for much of northern California today through Friday afternoon
 - Strongest wind gusts up to 40 mph expected today but remaining gusty on Friday
 - Very low humidity also expected
 - Any new fires could spread quickly under these conditions
- Cooler temperatures for much of the state today and Friday

Saturday-Wednesday

- Much cooler temperatures for the weekend into early next week, including southern California
- **Widespread strong wind event increasingly likely across much of the state later Sunday into Monday**
 - **Critical fire weather conditions could quickly develop**
 - **Strongest winds expected along the western slopes of the Sierra and across southern California**
- Some light rain is possible across portions of southern California and into the Sierra by late in the weekend or early next week
